

M-ABSORB 55

NANO MOISTURE ABSORBER

M-ABSORB 55 is a Nano Moisture absorber masterbatch developed for Polymers.

Use level: %0,5 - %1 dosed/mixed in polymer.

Opened bags should be used immediately.

Physical Properties :

Properties	Value	M.U.	Test Method
Density	1,60-1,80	g/cm ³	ASTM D 792

Applications

M- Absorb 55 is effective for polymers, specially for recycled and mineral filled polyolefins .

Due to it is nano based combined additive system, absorbs moisture in polymers and eliminates all moisture related problems and further improve mechanical properties .

Shelf life: 12 months.

Storage: Store in dry, cool and ventilated environment; avoid exposure to water & strong light.

Package : 5kg aluminium bags in 25 kg box.

Appearance: 2-4 mm pellets.

Food Contact: Suitable.

Safety: It is not classified as hazardous.

The information contained herein is to best of our knowledge true and correct and any suggestions are made without guarantee, expressed or implied, since the conditions of use are beyond our control.
