

SE-BLACK 4030

BLACK MASTERBATCH

SE-BLACK 4030 is carbon black polyethylene masterbatch developed for pipe and cable jacketing applications to be added to natural resins. It contains well dispersed small particle size carbon black to maintain highest UV protection.

SE- BLACK 4030 designed for easy and uniform dispersion for direct addition to natural resins during production.

Typical Applications:

Pressure pipe, cable jacketing, also can be used for film, sheet, molding applications.

Addition Rate: In order to achieve highest UV protection and reach %2 carbon black in final product %6 to be used.

Specification:

Density	1.10g/cm ³
Carbon Black Content	40
Moisture Content	<0,04
Carrier	Ldpe

Shelf Life: 2 years.

Storage: Store in dry, cool and ventilated environment; avoid exposure to water & strong light.

Package: 25kgs bags.

Appearance: Pellets.

Safety: It is not classified as hazardous.
